Please find below and/or attached an Office communication concerning this application or proceeding.

Period for Reply

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 2-6 are objected to because of the following informalities: The claim reference numbers are missing. The case has been examined as if claims 2-6 depend off of independent claim 1. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Hosogai (U.S. 6,182,296). Hosogai discloses a reversible denim jacket 50 having a front surface that covers the wearer's torso when worn. The jacket is made out of a conventional denim fabric (Column 4, 49). The jacket comprises a pair of exterior jacket pocket pouches 52, which are superimposed over a pair of interior jacket pocket pouches 60 (Figures 5 and 7). The pockets are sewn directly to the exterior and interior surfaces 140 and 150 of the jacket respectively (Column 4, 52-53, 60-61). The jacket would be

capable of being worn as a shirt, since a shirt and a jacket have the same body structure.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hosogai (U.S. 6,182,296). Hosogai discloses the invention substantially as applied in claims 1-5 above. However, Hosogai is missing an outside panel with a metallic piece. Hosogai shows a jacket 50 having exterior panels/pockets 52 that overlie interior pockets 60. The exterior panels/pockets have buttons 100 for securing the pockets (Figure 5). It is well known in the art that buttons are commonly formed from metal. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have used metal buttons so as to provide the pockets with a reliable means of closure.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gross (U.S. 2,763,011) and Palumbo (U.S. 2003/0070206) show reversible garments having pockets. Abbott (U.S. 2,604,627), Eggen (U.S. 5,611,086), and Kensic (U.S. 2006/0026735) show garments having interior pockets. Williamson (U.S. 3,835,474) and Jenkins (U.S. 1,832,214) show pocket constructions. Wiesenthal (U.S. 6,175,966) shows a garment with pockets. Stanislaw (U.S. 5,165,115) and Spector (U.S. 4,899,395) show concealed pockets. Easton (U.S. 4,656,673) and White (U.S. 4,651,355) show attachable pockets.
